

This Quran is the guidance for all humanity ; today's generation and future generations.
The Hidden Secret, the number **19** mentioned in Sura **74**,
was discovered by Rashad Khalifa in **1974** by GOD's will ,
after 1406 H. (**19 x 74**) years from the revelation of the Quran.
The number **19** protects GOD's book as a code (15:9).

The Code 19 proves to the humanity that this Quran is GOD's book
and it exposes the true submitters and believers, and the fake ones.
The system of the number 19 rejects sura 9 verse 128 and 129 which were Satanic verses.
Below, you shall witness all the proofs about these.

In the Quran, some suras begin with arabic letter or letters
ie. Sura 2 verse 1 : Elif.Lam.Mim.
These suras are initialed suras. And the other suras are un-initialed suras.
In the Quran, there are 29 initialed and 85 un-initialed suras.

Every arabic letter has its own numerical value, that is called Gematrical value.

Gematrical Value :

Letter	Gematrical Value	Letter	Gematrical Value
Elif	1	Sin	60
Be	2	Ayn	70
Cim	3	Fe	80
Dal	4	Sad	90
He	5	Qaf	100
Vav	6	Ra	200
Ze	7	Şin	300
Ha	8	Te	400
Ta	9	Se	500
Ya	10	Hı	600
Kef	20	Zel	700
Lam	30	Dad	800
Mim	40	Zı	900
Nun	50	Gayn	1000

✓ Place the numbers in the G.V. above side by side ; this number is a multiple of 19.

1234567891020304050607080901002003004005006007008009001000

This is the design of GOD and there is GOD's signature (19) on it.

A. FACTS FROM THE QURAN :

1. Basmalah, the First verse (1;1) has 19 letters.
2. In the Quran, there are 114 Suras (19 x 6).
3. In the Quran, there are 6234 numbered verses and 112 un-numbered verses (Basmalabs) ;
 $6234 + 112 = 6346$ (19 x 334) $6346 \dots 6 + 3 + 4 + 6 = 19$
4. The missing Basmalah of sura 9 is placed after 19 suras at sura 27 verse 30.
 $(27 + 30 = 57$ (19 x 3))
 Therefore, there are 114 (19 x 6) Basmalabs in the Quran.
5. Missing basmalah is placed at verse 30 and the number 19 is also placed at verse 30.
 The number 30 is 19 th composite number.
6. Total of sura numbers from 9 to 27 ; $9 + 10 + 11 \dots \dots \dots 27 = 342$ (19 x 18)
 The number 342 also equals the number of words between two basmalabs of sura 27.
7. First Revelation , sura 96 is 19 th sura from the end.
8. First Revelation , (96 ; 1-5) has 19 words.
9. First Revelation , (96 ; 1-5) has 76 (19 x 4) letters.
10. First Revelation , sura 96 has 19 verses.
11. First Revelation , sura 96 has 304 (19 x 16) letters (Excluding basmalah 285 (19 x 15))
12. Last Revelation, sura 110 has 19 words.
13. Sura 110 verse 1 has 19 letters.
14. Only sura 82 has the last word as GOD (ALLAH) and it is at the verse of 19.
 This is the 19 th word of GOD from the end. Sura 82 has 19 verses.
15. There are 29 initialed suras.
 14 different arabic letters form 14 different sets of initials. $29 + 14 + 14 = 57$ (19 x 3)
16. Total of 29 initialed sura numbers is..... $2 + 3 + 7 \dots \dots \dots 68 = 822$
 with 14 different sets of initials ; $822 + 14 = 836$ (19 x 44)
17. There are 38 (19 x 2) un-initialed suras
 between the first initialed sura (2.) and the last initialed sura (68.)
18. Verse total including basmalah of 19 x....sura numbers ;
 $99 + 89 + 30 + 32 + 9 + 7 = 266$ (19 x 14)
19. The Quran starts with 7 verses (Sura 1) and ends with 6 verses (Sura 114)
 76 (19 x 4)
 Shortest verse number in the Quran is 3 and longest verse number is 286
 $3 + 2 + 8 + 6 = 19$

C. Initials :**1. QAF**

- Q - initialed suras are sura 50 and 42.
Sura 50 has 57 (19 x 3) , sura 42 has also 57 (19 x 3) Qaf letters.
- $57 + 57 = 114$This shows the Quran which has 114 suras and which begins with the letter 'Qaf'.
"Kuran" (The Quran) is mentioned in the Quran 57 (19 x 3) times.
- Sura 42.....53 verses..... $42 + 53 = 95$ (19 x 5)
Sura 50.....45 verses..... $50 + 45 = 95$ (19 x 5)
- The Quran is described in Sura 50 verse 1 as 'Mecid' (glorious) and the G.v. of it is 57 (19 x 3), that equals the Qaf letters in that sura.
 $M(40) + C(3) + Y(10) + D(4) = 57$ (19 x 3)
- Verse total where the letter Qaf placed in sura 50 is 798 (19 x 42)
The number 42 shows the other sura (42) which contains the letter Qaf.
- In the Quran, there are 76 (19 x 4) Qaf letters at the verses numbered 19.

- At the initialed suras between sura 42 and sura 50.....

Sura	Verse no	Initials	G.v. total	Qaf
42	53	Ha.Mim.Ayn.Sin.Qaf	278	57
43	89	Ha.Mim	48	84
44	59	Ha.Mim	48	35
45	37	Ha.Mim	48	36
46	35	Ha.Mim	48	73
50	45	Qaf.	100	57
270	318		570 (19 x 30)	342 (19 x 18)

- ✓ Let's add the total of sura and verse numbers with the Quran, 666.
 $666 + 270 + 318 = 1254 (19 \times 66)$
 The Gv of the word of GOD (ALLAH) is 66
 and the Gv of 'Vahid' (One) is 19.
 The letter Qaf points out the Quran which gives the Message ; One GOD

Let's add the results with the Quran, 666.
 $666 + 270 + 318 + 570 + 342 = 2166 (19 \times 114)$
 Again, it points out the Quran which consists of 114 suras.

- In order to protect the system of number 19 for the letter Qaf,
 the word of 'Qawm' used for the people of Lot is used in Sura 50 as 'ihwan' (50:13).
 (7:80, 11:70,74,78,89 , 21:74, 22:43, 26:160, 27:54,56 , 29:28, 38:13, 50:13, 54:33)

Another example is the word of 'Mecca' (48:24) which is used as 'Becca' in 3:96.
 This protects the system of counting letter Mim in Sura 3.

2. NUN

- In Sura 68 verse 1 , there are 2 letters of Nun (Nun Vav Nun), totally 3 letters.
 In Sura 68, there are 133 (19 x 7) Nun letters.
- Sura 68 is Last initialed sura.
 Between First initialed sura (2:1) and Last initialed sura (68:1),
 there are 38 (19 x 2) un-initialed suras.
 Within this group, there are 2641 (19 x 139) times the word of GOD (ALLAH).
 Within this group, there are 5263 (19x 277) verses.
- "Zan Nun" is used for Jonah in 21:87.
 In order to protect the system of number 19 ,
 "Sahibil Hut" is used for Jonah in 68:48.

3. SAD

- It is placed in 3 suras.....

Sura	Sad
7	97
19	26
38	29
152 (19 x 8)	

- The word of “Bastatan” was written with letter Sad in 7:69. However, it should be written with letter Sin.

4. YA SĪN

- In Sura 36 ;

237	Ya
48	Sin

285	(19 x 15)

5. HA MĪM

6. CONTACT PRAYER (SALAT)

Abraham was the first one who observed Contact Prayer.

GOD's Messengers, Lot, Isaac, Ismail, Jacob, Joseph, Davud, Moses, Jesus did observe it (2:135, 3:95, 12:38, 16:123, 21:73, 22:78). And it is observed in specific times (4:103).

You can't observe the time that you missed in another time.

Before observing Contact Prayer,

you have to take an ablution which is four steps (4:43, 5:6).

If your ablution is not nullified by certain acts (4:43, 5:6) ,

you do not have to take an ablution before observing Contact Prayers.

and 17 units in a day become 117 units in a week (17 x 6 + 15 (Friday) = 117)

because Friday prayer (Noon) is 2 units.

117 units in 35 times a week (7 days)

117 + 35 = 152 (19 x 8)

(19 x 5893611671.....)

- ✓ Place Sura no (1), verse no (7),
verse number, number of letters
and G.value of the letters for each verse side by side.

1 **7** **1** 19 **2** 60 40 1 30 30 **5** 1 30 200 8 40 50 1 30 200 8 10 40 **2** 17.....50
(19 x 9010137053.....)

- ✓ When you say the letters in Arabic language, your lips have to touch only for 2 letters. These letters are B (G.v 2) and M (G.v 40). When reading Sura 1 with 7 verses in arabic, the lips touch 19 times. Total of G.value of 19 letters is multiple of 19.

Look at each letter in the sura and find out which letter (nth letter) in that sura. For example, No 1 Letter B is 1st letter, No 2 Letter M is 3rd letter, No 3 Letter M is 12th letter. Then add G.value and nth letter.

19	Aleyhim	M	40	129	169
			608 (19 x 32)		1769

- ✓ Let's add the total of 1769 with Sura no (1), verse no (7).....

$$1769 + 17 = 1786 (19 \times 94)$$

The First (1) verse is Basmalah and its G.value is 786 in the Quran. The Basmalah consists of 19 letters and in this table there are 19 letters.

In the Quran, every sura begins with Basmalah except Sura 9.
 It was GOD's sign that there was no Basmalah in Sura 9.
 GOD knew that Satanic verses shall be added to the end of Sura 9,
 that's why HE did not place the Basmalah at the beginning.
 When you investigate the missing basmalah, you shall face the number 19.

1. Missing Basmalah is found in sura 27, which is 19 suras after sura 9.
2. After finding of missing basmalah,
the number of basmalahs in the Quran becomes 114 (19 x 6).
3. Missing Basmalah is found in sura 27 verse 30.
 $27 + 30 = 57$ (19 x 3)
4. Total of sura numbers from sura 9 to sura 27 is 342 (19 x 18).
The number 342 also equals to the number of words
from the basmalah of sura 27 to the next basmalah of sura 27 verse 30.
5. Missing basmalah is placed at verse 30 and the number 19 is also placed at verse 30.
The number 30 is 19 th composite number.

In the Quran, there are 6234 numbered verses
and 112 un-numbered verses (Basmalahs).
112 suras have basmalahs which are un-numbered.
Sura 1 (1:1) and sura 27 (27:30) have numbered basmalahs.

Rashad Khalifa was indeed GOD's Messenger.
By GOD's will, he discovered the miracle of 19
and delivered GOD's Message to humanity (3:81, 33:7, 33:40).

Messenger, in arabic "Resul" has a different meaning from Prophet, in arabic "Nebi".
Prophet receives GOD's book and delivers it
because he is also a Messenger whose mission is to deliver.
Therefore every Prophet is also a Messenger.

Messenger delivers GOD's Message from the existing scripture,
delivers good news and also warns the people.
Messenger does not receive a new scripture.
Therefore not every Messenger is a Prophet.

Muhammed was Last Prophet and The Quran is the Last Scripture.
But he was not the Last Messenger (33:40).
The idolizers claim that Muhammed is the Last Messenger,
early idolizers did claim the same for Joseph (40:34).

3:81 points out the fact that there will be GOD's Messenger after all the Prophets.
The name of Rashad Khalifa was coded in the Quran.

1. The root word of the name Rashad is 'ReŞaDa' (Ra-Şin-Dal)
and it is mentioned **19** times in the Quran.
2. Rashad (ReŞAD) : Ra (200) Şin (300) Elif (1) Dal (4).....Total = 505
Khalifa (HaLİFE) : Hı (600) Lam (30) Ya (10) Fe (80) He (5).....Total = 725
Total G. value : 505 + 725 = 1230

The word "Rashad" occurs in 40:29, 38.
The word "Khalifa" occurs in 2:30, 38:26
but in 2:30, it refers to Satan and 38:26 refers to human. Therefore, 2:30 is excluded.

Total of sura and verse numbers : 40 + 29 + 38 + 38 + 26 = 171 (19 x 9)

The digital total of 38:26 which refers to human : 3 + 8 + 2 + 6 = **19**

19 years after Prophet Muhammed's death, some scribes were appointed to make copies of the Quran to be sent to the cities of Muslim lands.

They were using the Original Quran which was written by Muhammed's hand.

Among these, there were Osman b. Affan, Ali b. Ebu Talip, Zeyd b. Sabit, Ubeyy b. Kab, Abdullah b. El - Zubeyr, Said b. El - As, Abdurrahman b. El - Haris b. Hişam.

Muhammed had written in its chronological order of Revelation.

Muhammed had written also the necessary instructions for its proper position.

When the scribes came to sura 9, one of the scribes insisted about 2 more verses (9:128-129) which were honoring Prophet. Ali was against it and claimed that they were not the verses revealed to Muhammed. Ali did protest this action and this caused a chaos among society on those days.

Below, there is a historical evidence from the reference

'El Itkan fi'ulum il Kuran' by **Celaleddin El- Suyuti - El- Azhar Press, Cairo, Egypt, 1318 H., page 59**

“.....Ali was asked “Why are you staying at home?”

He said, “Something has been added to the Quran and I have pledged never to put on my street clothes except for the prayer until the Quran is restored.”

Page 28

“ When the scribes came to the end of sura 9, they believed that 9:127 is the last verse but Ubeyy b.Kab said, “Prophet did read to me 2 more verses.” and did read 9:128-129. Then added that “These 2 verses are the last revealed verses of the Quran.” ”

The results of this action ;

1. Khalifa Osman was killed and Ali was elected as Fourth Khalifa.
2. A 50 year war between Ali and his supporters and idolizers, distorters of the Quran.
3. Finally, Ali was killed and then his family.
4. Ali's son, Hussein and his family were massacred in the battle of Karbala including 19 people from Ehli beyt, sahabe and other believers.
5. For 1400 years, they invented new books, Hadith and sunna beside the Quran, distorted the Quran and Islam, GOD's religion.

200 years after Muhammed's death, the idol worshipers who were defeated by Muhammed in the conquest of Mecca (632 AD), reverted to idolatry. But this time, Muhammed became their idol. Idolizers never live without idols.

After this war, Mervan b. Hakem (d.684 AD) did destroy the Original Quran written by Muhammed in order to remove the disputes. The reference for this action is **Ulum El-Kuran, Ahmed von Denffer, Leicester, U.K, 1983, page 56**
Nuzülünden Günümüze Kuran'ı Kerim Bilgileri, Osman Keskiöglu, 1987, page 140
Mebahis fi Ulum el-Kuran, Dr. Suphi es-Salih, page 83.

He did destroy it because it is obvious that the original Quran was not the same with the other copies of the Quran. Injected 2 false verses were the cause of the disputes. In the historical background, we can witness that these 2 false verses, 9:128-129 were always suspect. In Buhari's hadith and El-Suyuti's Itkan, they give the clues about it. Every single verse in the Quran was verified by at least 2 witnesses except 9:128-129.

“ Except sura 9, verses 128 and 129. They were found only with Huzeyme b. Sabit El-Ensar.”

Then someone came up with a Hadith stating that “the testimony of Huzeyme equals the testimony of two men.”

According to this hadith, they accepted these 2 false verses.

Sura 9 was revealed in Medina but these 2 false verses were Meccan. How could a Medinan sura contain Meccan verses ?

Huzeyme was Medinan Muslim. How could a Medinan muslim have Meccan verses ?

And why GOD did not place His signature, Basmalah , at the beginning of Sura 9 ?

The mathematical code, 19 , discovered in 1974 rejects 9:128-129.

The mathematical system of the number 19 proves that these false verses are not the verses of GOD.

These satanic verses are out of the Quran and this generation has the purified Quran.

Everything is in the hand of GOD and He controls all things in the heavens and the earth. GOD did let this action just because...

1. the day will come, the human beings shall witness the code in the Quran, and the Miracle of the Quran.

2. the day will come, the human beings shall witness that GOD protects His Book against Satan and his followers (15:9, 17:88, 41:41-42).

True Submitters and Believers are the ones who follow This Quran alone. Fake submitters and believers shall continue to follow their own way.

1. False verses , 9:128,129 :

128. A Messenger has come to you from among you who wants no hardship to afflict you, and cares about you and is compassionate towards the believers, merciful.

129. If they turn away, then say, “Sufficient for me is GOD (ALLAH). There is no other God except He (La ilahe illa hu). I put my trust in Him. He is the Lord with the great throne.”

The word of ‘Rahim’ (merciful) is used for Muhammed in verse 128, but in the Quran, it is used always for GOD. It is a name of GOD. After excluding this one, there are 114 (19x6) times in the Quran.

2. The word of ‘Resul’ (Messenger) occurs 116 times in the Quran. This word in 12:50 is used for the messenger of Pharaoh and it is excluded. After excluding this one, 9:128, there are 114 (19x6) times in the Quran.

3. The word of ‘Arş’ (throne) occurs 22 times in the Quran. This word in 12:100 is used for Joseph and it is excluded. This word in 27:23 is used for Queen of Sheba and it is excluded. After excluding this one, 9:129, there are 19 times used for GOD in the Quran.

4. After excluding the word “kul” (say) in 9:129, there are 332 times in the Quran. The word “kaalu” (they said) occurs the same number of times , 332 , in the Quran.

5. After excluding the word “ilah” (God) in 9:129, there are 95 (19x5) times the word “ilah” in the Quran.

6. After excluding 9:128,129 , the word of GOD (ALLAH) occurs 2698 (19 x 142) times in the Quran.

7. Total of verse numbers where the word of GOD (ALLAH) placed.....
118123 (19 x 6217)

8. Total occurrence of the word of GOD at the end of sura 9....
1273 (19 x 67)
9. From first initial (2:1 E.L.M) to the last initial (68:1 N),
there are 2641 (19 x 139) times the word of GOD.
Outside these, there are 57 (19 x 3) times the word of GOD
(apply page 14 D.1.C).
10. Sura 9 is un-initialed sura.
In 85 un-initialed suras, the word of GOD occurs 57 (19 x 3) times.
The number of verses where the word of GOD placed is 1045 (19 x 55).
11. From missing basmalah (Sura 9) to the extra basmalah (27:30),
the number of verses where the word of GOD placed is 513 (19 x 27)
(apply page 33 Table 6)
12. In the Quran, there are 6234 numbered verses and 112 un-numbered verses ;
 $6234 + 112 = 6346$ (19 x 334) $6346 \dots 6 + 3 + 4 + 6 = 19$
13. In the Quran, adding sura no, verse no and total of verse no gives the result of
346199 (19 x 19 x 959) (apply page 31 B.1.).
14. Same system above for 85 un-initialed suras gives the result of
156066 (19 x 8214) (apply page 31 B.2.).
15. In 85 un-initialed suras, adding sura no, verse no
from Sura 1 to end of sura 9 gives the result of

5	120	125
6	165	171
8	75	83
9	127	136
		703 (19 x 37)

16. 3:78 gives the clue that the idolizers were adding false verses to the Quran,
ie. 9:128-129.
From 3:78 to the end of sura 9 with 127 verses,
there are 912 (19x48) times the word of GOD.
3:78 insists that 9:128-129 are Satanic verses,
3:78 has 29 words, 9:128&129 have 29 words.

17. In un-initialed suras, from missing basmalah (Sura 9) to the end of the Quran, adding sura no, verse no and total of verse numbers gives the result of....

Sura	Verse no	Total of verse no	Total
9	127	8128	8264

$$342 + 1951 + 117673 = 119966 (19 \times 6314)$$

19. Same system above from missing basmalah (Sura 9) to the verse where the number 19 mentioned (74:30), gives the result of.....

20. Sura 9 has 127 verses and digital total of the verse no is $1 + 2 + 7 = 10$
 From missing basmalah (Sura 9) to the extra basmalah (27:30), look at the number of verses that the digital total is 10.
 Adding these with sura and verse no gives the result of.....
 (apply page 34 Table 8)

$$342 + 1951 + 177 = 2470 (19 \times 130)$$

21. Verse 129 ends with the number 9.

Let's look at the suras whose verse number ends with the number 9.

If sura 9 had 129 verses , it will be in this table but the system shall be destroyed.

22. Verses 128 and 129 ; there are 2 times 1, 2 times 2, 1 time 8 and 1 time 9.

Let's look at the number 1 in the verses of the Quran, such as 1,10,11,12...21,31.

There are 2546 (19 x 134) times the number 1 in the verses.

Let's do the same for the number 2,8 and 9 (2 + 8 + 9 = 19).

Total count of these 3 numbers is

$$1641 + 908 + 833 = 3382 (19 \times 178).$$

If the verses 128 and 129 are included, the system shall be destroyed.

24. In 85 un-initialed suras, digital total of verse numbers is 27075 (19 x 19 x 75).

If sura 9 had 129 verses, then total would be $27075 + 23 = 27098$ and the system was destroyed.

25. The Digital total of sura no and verse no in the Quran.....

35. Let's look at the suras whose verse no begins with the digit 1.
There are 30 such suras. Add the verse numbers of these suras.
For example ; 19 : 1+2+3+4.....+19
The result is 126122 (19 x 6638).
If sura 9 had 129 verses, the result would be 126379 (126122 + 128 + 129)

Digital total of sura no is 9 and digital total of verse no is 12.

Another one is sura 27 (27:93). But there is no system.

But if taking sura 9 with 127 verses , sura 9 shall be excluded from this table and sura 27 stays alone.

✓ 2793 (19 x 147)

- 39.** Let's assume that sura 9 has 129 verses
and look at the suras whose verse no ends with digit 9.
There are 13 such suras after excluding sura 9 because it destroyed the system.
13 such suras verify the system.

and sura 9 is odd numbered sura whose verse no ends with digit 9.
Such suras verify the system only if sura 9 is excluded ($646 + 9 + 129$).

If sura 9 had 129 verses , the result would be 37 and the system shall be destroyed.

43. Let's assume that sura 9 has 129 verses.
Let's look at the suras contain verse no 129.
For example ; Sura 2 has 286 verses so contains verse no 129.
Total of sura no is 114 (19x6) but total verse no is 1161 which is NOT multiple of 19.
It gives the clue that something is wrong with the verse no.
After placing number 127 instead of 129 for sura 9 ,
total verse no becomes 1159 which is multiple of 19.

Sura	Verse No

- ✓ Total : 114 + 1159 = **1273** (19 x 67)
(apply table 44 for the number 1273)

44. This time let's look at the suras contain verse no 128, while assuming sura 9 has 129 verses.

Sura	Verse No

✓ Total : $130 + 1280 = 1410$?

But when taking sura 9 with 127 verses, it will be excluded from the table. Then the result will be $1410 - 9 - 128 = \mathbf{1273}$ (19 x 67)

From the beginning of the Quran to the end of sura 9, there are 1273 (19 x 67) times the word of GOD.

45. Sura 9 is un-initialed sura whose last two verses are 126 and 127. Let's take 85 un-initialed suras and add the last two verses.

21	112	2
23	118	8
26	227	7
37	182	2
247 (19 x 13)	2746	76 (19 x 4)

If sura 9 had 129 verses , the result would be 78 and the system shall be destroyed.

48. Let's do the same above for odd numbered verses
because verse 127 is odd numbered verse. There are 8 such suras.

Sura	Verse no	Last Digit
6	165	5
9	127	7
10	109	9
11	123	3
12	111	1
17	111	1
20	135	5
26	227	7
		38 (19 x 2)

If sura 9 had 129 verses , the result would be 40 and the system shall be destroyed.

49. Let's do the same above for odd numbered suras
because sura 9 is odd numbered sura. There are 3 such suras.

Sura	Verse no	Digital total of sura no	Digital total of verse no
9	127	9	10
11	123	2	6
17	111	8	3
361 (19 x 19)		19	19

50. The number 129 is divisible by 3.

There are only 2 suras that sura no is odd, verse no is odd,
verse no is 3 digits and divisible by 3.

If sura 9 had 129 verses, it will be in the table but the system would be destroyed.

Sura	Verse no	Digital total of sura no	Digital total of verse no	Total
11	123	2	6	8
17	111	8	3	11
28	234			19

✓ Place the total of sura and verse no side by side....

28 234 (19 x 1486)

51. Sura 9 a) odd numbered sura

b) sura no is divisible by 3 and 9

c) verse no is odd

d) verse no ends with digit 7 (127)

e) verse no is a prime no

Another sura is : 45:37

Sura	Verse no	Digital total of sura no	Digital total of verse no	Total
9	127	9	10	19
45	37	9	10	19
				38 (19 x 2)

✓ 9 127 45 37 (19 x 4803923)

52. Let's assume that Sura 9 has 129 verses.

In the Quran, there are two suras whose number begins with 9 and verse no ends with 9
and these are sura 9 and sura 96.

Sura	Verse no	Total of verse no	Total
9	129	8385	8523
96	19	190	305
105	148	8575	8828 ?

✓ Place the total of sura and verse no side by side....

105 148 ?

After correcting verse no (127) in sura 9.....

Sura	Verse no	Total of verse no	Total
9	127	8128	8264
96	19	190	305
105	146	8318	8569 (19 x 451)

✓ Place the total of sura and verse no side by side....

105 146 (19 x 5534)

55. Sura 9 verse 127 ends as ; “lâ y e f k a h u n ”

Last letter is letter Nun (G.value , 50)

Let’s look at from Sura 1 to sura 9, the first letter and the last letter for each sura.

Sura	First letter & G.value	Last letter & G.value	Total
1	Be (B) 2	Nun (N) 50	52
2	Elif (E) 1	Nun (N) 50	51
3	Elif (E) 1	Nun (N) 50	51
4	Ya (Y) 10	Mim (M) 40	50
5	Ya (Y) 10	Ra (R) 200	210
6	Elif (E) 1	Mim (M) 40	41
7	Elif (E) 1	Nun (N) 50	51
8	Ya (Y) 10	Mim (M) 40	50
9	Be (B) 2	Nun (N) 50	52
38 (19 x 2)		570 (19 x 30)	608 (19 x 32)

If sura 9 had 129 verses , it would end as ;

“a z i y m ”

Last letter is Mim (G.value, 40) and the system would be destroyed.

56. There are 43 suras that end with the letter Nun (50).

Total of sura no is 1876.

These suras are.....

1	2	3	7	9	10	11	12	15	16	21	23	26	27
28	29	30	32	36	37	38	39	40	43	44	46	49	51
58	61	62	63	66	67	68	70	77	81	83	84	95	107
109													

✓ Let’s add number of suras (43) and total of sura no (1876).

$$43 + 1876 = \mathbf{1919} \text{ (19 x 101)}$$

57. After excluding the statement of “La ilahe illa hu (There is no other God except HE)” in 9:129, this statement occurs 29 times in 19 suras (apply page 22 table B).

There is only 1 time in sura 9, that is 9:31..... 9 31 (19 x 49)

From missing Basmalah (Sura 9) to the extra basmalah (27:30), this statement occurs 7 times.

Sura	Verse
9	31
11	14
13	30
20	8
20	98
23	116
27	26
323 (19 x 17)	

If sura 9 had 129 verses , the result would be 452 and the system shall be destroyed.

The World will end. The verses of 18:7, 8 and 69:13 - 15 point out this fact.
 The end of the world is not the Judgment day.
 The Judgment day will be after the End of the World.
 On the Judgment day, new heavens and earth shall be placed (14:48).

The Signs of The End of the World

The signs have been given in the Quran (47:18).

1. The splitting of the Moon (54 : 1) :
 July 1969, Apollo 11 landed on the moon and brought back moon rocks.
2. The Discovery of the Code 19 in the Quran (74 : 30 - 37) : 1969 - 1974
3. The Creature (27 : 82) :
 The Computer is the creature that GOD created from the earth
 and it exposed the Code 19 in the Quran.
 (2 + 7 + 8 + 2 = 19)
4. GOD's Messenger (3 : 81) :
 The Messenger comes after all the Prophets in order to purify GOD's religion
 and delivers GOD's Message from the Quran.
5. Smoke (44 : 10) : GOD's Message is being delivered
 and whoever disbelieves shall suffer the consequences.
 By GOD's will, the deep impact shall be occurred upon the human beings
 who will understand how they are so wrong.
6. GOD's religion shall prevail over all other religions in the world (9:33,61:9).
7. Gog and Magog (18 : 94, 21 : 96) :
 The corruptors of earth shall reappear in the year 1700 H. (2271 AD)
 in order to invade all the land of the earth.
8. The Discovery of the new worlds (65 : 12) :
 Like our world, other 6 world outside our solar system shall be discovered by GOD's will.

GOD points out that The Hour for the End of the World will be revealed before it happens by GOD (7:187, 20:15, 31:34, 33:63).
20 :15 is the key verse for it and verse number 15 points sura 15 where the Hour is found.
(15:85, 86, 87)

“Indeed, we have given you the seven pairs, and the great Quran.”
(15 : 87)

Seven Pairs ($7 \times 2 = 14$) are **14** initials in the Quran.
Let’s add G.value of these 14 different initials in the Quran.

14 initials set	G.value
Qaf	100
Nun	50
Sad	90
Ha.Mim	48
Ya.Sin	70
Ta.He	14
Ta.Sin	69
Elif.Lam.Mim	71
Elif.Lam.Ra	231
Ta.Sin.Mim	109
Ayn.Sin.Qaf	230
Elif.Lam.Mim.Sad	161
Elif.Lam.Mim.Ra	271
Kef.He.Ya.Ayn.Sad	195
	<hr/> 1709 <hr/>

The result of 1709 is lunar years (H.) (9:36)
and humanity lives 1709 H. years and the World will end in 1710 (19×90).
This was discovered in 1980 AD. (1400 H.).
 $1709 - 1400 = 309$
The number 309 has the relation with the End of the World (18:21)
and it is mentioned in 18:25 as $300 + 9$,
means that the difference between 300 solar years and 300 lunar years is 9 years.

$1400 \text{ H.} + 309 = 1709 \text{ H.}$ and $1980 + 300 = 2280$ (19×120)

The year 2280 AD contains the year 1709 H. and 1710 H.
1710 H. begins at 27 August 2280 AD.
Therefore, by GOD’s will,
the World will end between 27 August 2280 and 31 December 2280.

In my opinion, 16 December 2280 is the Day of the End of the World.
